

Sea Scout Ship 940

Based on Stillwater Lake at
Camp Minsi in Pocono Summit, PA

What is Sea Scouts?

Sea Scouts, BSA is a program of the Boy Scouts of America for young men and women ages 14 to 20. A Sea Scout Ship (like a "troop" or "crew") is like a Venture Crew that is heavily focused on water-based action. This can be any type of watercraft on any type of body of water. It does not have to be a tall ship on a bay or the ocean. Most Sea Scout Ships are based around a sailboat on a local lake. The largest growth of ships is in the paddle sport craft segment.

Anxious to jump in? How about New York Harbor during Fleet Week 2019?

An Annual event in New York Harbor is tentatively slated as the Ship's initial activity. Ship 940 will do a port of call at the Coast Guard Base in Bayonne, NJ, adjacent to New York Harbor. Sea Scouts will get to visit the USCGC Sturgeon Bay (center left), an ice breaker on the Hudson and the USCG Katherine Walker (center right), a buoy tender in New York Harbor and the Hudson River.
